

QUALITY POLICY

Sustainable Solutions International Quality Policy is defined and strongly driven by the following management principles and behaviours:

- Build a mutually profitable relationship with our customers, ensuring their long-term success, through the understanding of their needs and the needs of their customers;
- Achieve our commitments to quality, environmental sustainability, socio, economic deliverables, and schedules;
- Enhance the systematic research, management and delivery by using best preventive practices at all levels and ensure reliable risk management;
- Drive continual improvement and innovation based upon efficient business processes, well-defined measurements, internal and external auditing, best practices, and customer surveys; and
- Develop staff competencies, creativity, empowerment and accountability through appropriate development programs and show strong management involvement and commitment.

Sustainable Solutions International strives to be a provider of engineering solutions with sustainable outcomes and ecological benefits. Through the use of these guiding principles, everyone at Sustainable Solutions International is accountable for fully satisfying our customers by meeting or exceeding their needs and expectations with best innovative solutions and services.

The policy, organisation and procedures necessary to achieve the required standards are described in our Quality Management System.

Dominic Xavier – RPEQ 7179
Managing Director
Sustainable Solutions International Pty Ltd
